Chinese export Low iron tempered glass supplier 5 + 5 mm

Low iron ceramic pattern printed curved glass, made of two pieces of low iron ceramic pattern printed tempered glass and four PVB film classes. The use of low iron glass to make glass with ceramic motifs, colors and patterns look more realistic and brighter.

Characteristics

- Provides more security than other types of glass.
- Improved audio control due to the ability to detonate sounds of the middle layer of PVB / SGP.
- Safety glass for the chosen thickness.
- Provides greater personal safety after broken because it remains intact on the frame.
- Providing high intrusion resistance of objects, effectively preventing intrusions.
