Characteristics

- Pattern glass in addition to canned decoration of our shower room, also protects privacy.
- Frosted glass produces translucent Satin and maintains high light.
- Colorless glass allows enough light to enter the shower room and clear view.
- The color of the glass can be added to the shower to give a different color.
- PDLC can switch smart glass to replace transparent opaque switch. When I take a bath, you can make it opaque. When you need light to open, you can save a lot of money.
