

## China factory suppliers non-slip clear safety glass flooring

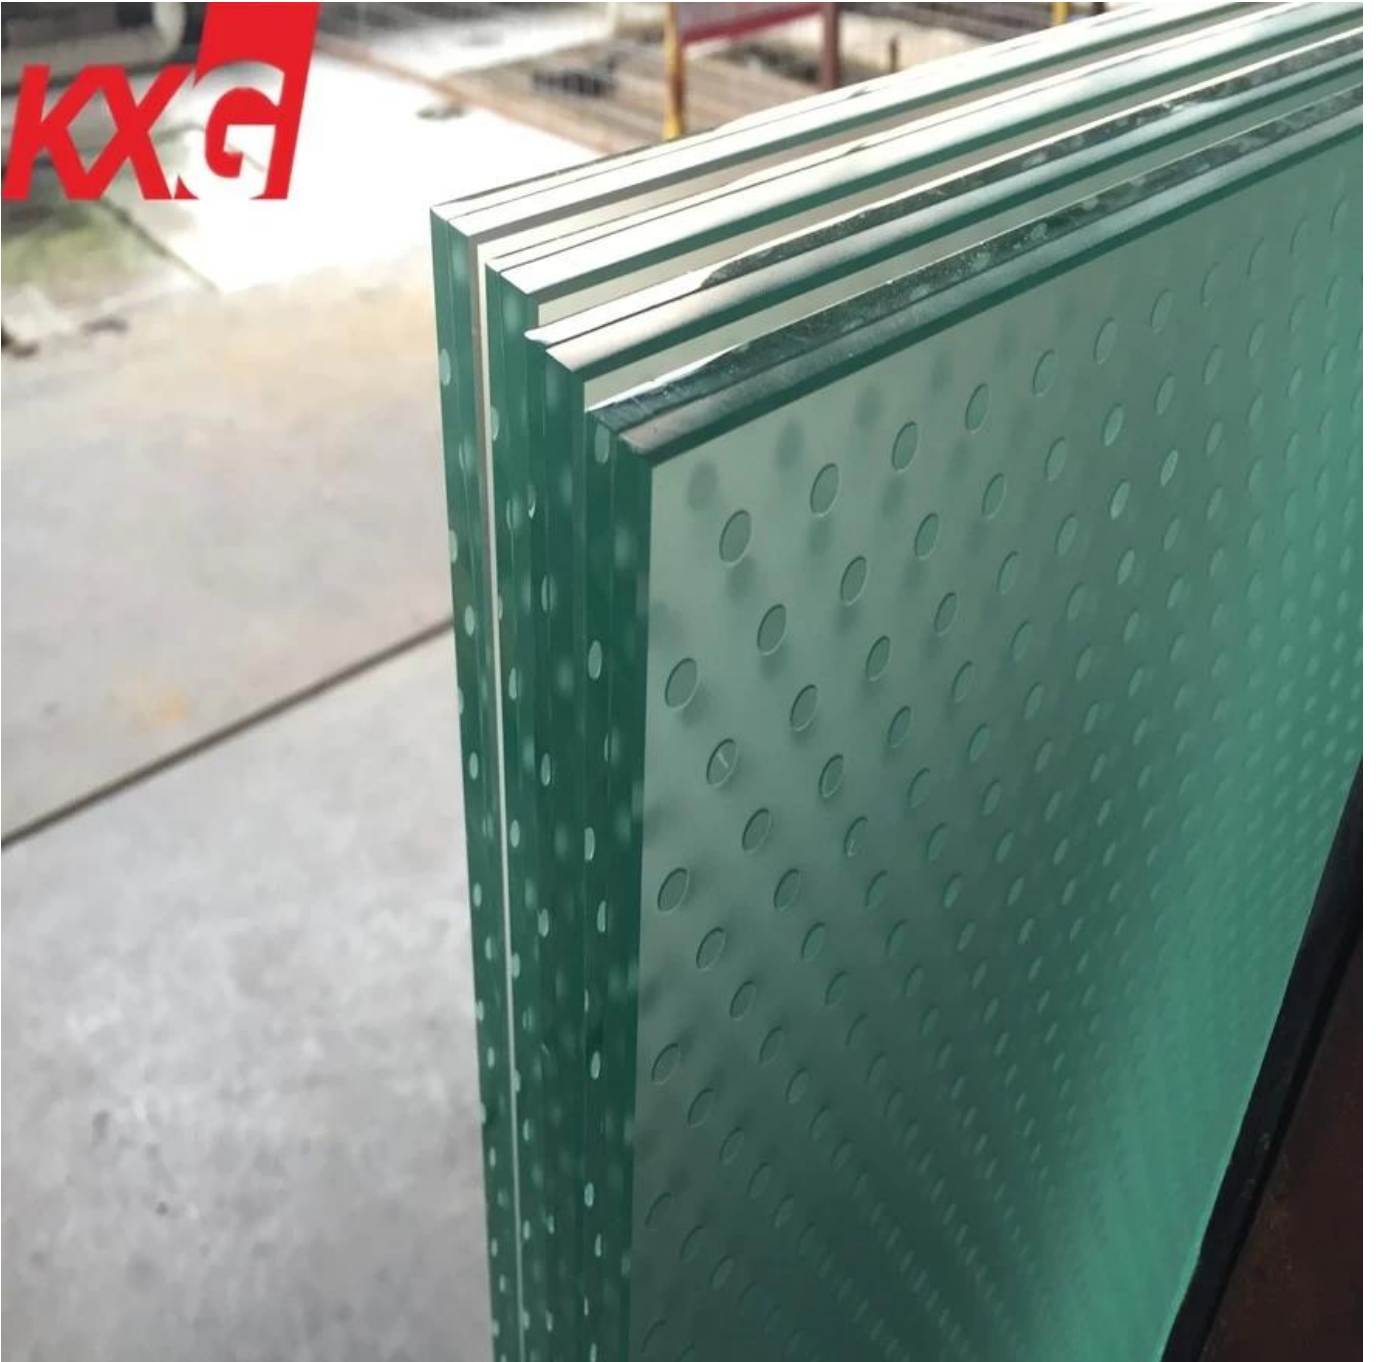

[Staircase glass](#), stair glass, floor glass, stair glass. It is used more and more widely on the stairs of residential, commercial, and industrial buildings, because glass not only creates space and natural light, but also makes buildings more design. Non-slip glass is the best choice for floor coverings.

Non-slip glass, also known as non-slip glass, non-slip glass, non-slip glass, etc. Widely used as floor glass due to its anti-slip function. The glass thickness of the non-slip glass is usually composed of two or three or four layers of laminated glass, and the thickness of the glass can range from 17.52 mm to 40.28 mm, such as two layers of laminated glass 8 + 1.52 mm + 8 mm, 10 + 1.52 mm + 10 mm 12 + 1.52mm + 10mm, 15 + 2.28mm + 15mm, 19 + 2.28mm + 19mm or three-layer laminated glass 6 + 6 + 6mm 8 + 8 + 8mm 10 + 10 + 10mm 12 + 12 + 12mm or four-layer laminated glass 6 + 6 + 6 + 6mm 8 + 8 + 8 + 8mm 10 + 10 + 10mm. But this depends on the confirmation of the project and the customer.

### Advantages of non-slip glass flooring

- Internal, external, dry and wet use.
- Highly scratch resistant and stain resistant.
- Easy to process: cutting, beveling, bending, drilling, tempering and lamination.
- Highly non-slip, easy to install, clean and maintain
- Different colors and patterns depending on the design
- Use also improves slip resistance.
