

[laminate glass](#) , laminated glass

laminate glass / laminated glass / laminated glass / laminated glass -

- laminated glass is made of two or more layers of glass
- laminated glass is made of two or more layers of glass
- laminated glass is made of two or more layers of glass
- laminated glass is made of two or more layers of glass

laminate glass is made of two or more layers of glass. The layers are held together by a special resin. This makes the glass stronger and safer. If the glass breaks, the pieces will stay together. This is why laminated glass is used in many places, like in cars and in buildings.
