

Tempered [glass factory](#) supply curved glass for shower room door wholesale price

Curved tempered glass

[Curved tempered glass](#) is shaped by mould controlled by computer, rapidly and uniformly cooled immediately after it is heated to the designed shape. This in of glass has all the good properties of flat tempered glass.

Characteristic

Safety, mechanical attack resistance and thermal stability are as good as those of flat tempered glass. which anti-wind pressure ability and deflection performance are better than those of [flat tempered glass](#).

TEMPERED

Tempered glass referred to as "safety glass." It is more resistant to breakage than normal float glass. If it is broken, it usually breaks into relatively small particles, which are less likely to cause serious injury
