

# 663 13.14mm balcony balustrade railing

663 13.14mm balcony balustrade railing. This railing system is designed for balconies and stairs, offering a modern and secure solution. It features a 13.14mm thick glass panel supported by a stainless steel frame. The system is compatible with various glass types, including PVB laminated glass, ensuring safety and durability. The railing is easy to install and maintain, making it a popular choice for residential and commercial buildings.
