

China 12mm [acid etched glass suppliers](#)

Kunxing glass factory 12mm acid-etched tempered glass has the same safety as the clear tempered glass, but is private due to its translucent finish. Which makes it a great choice for windows in sensitive spaces—certain office doors or windows, front entryways, laundry areas, bedrooms and bathrooms, etc. Acid etched glass lets light through while providing vision control. Acid etched tempered glass has a smooth surface, no fingerprints, and is easy to clean.

Detail of [12mm acid etched tempered glass](#)

Acid etched tinted glass

Advantages of [acid etched glass](#):

1. Bright interiors: The very high light transmittance of acid etched glass ensures maximum light, which maintaining privacy.
