

## 8.76mm white laminated glass price,8.76mm white translucent laminated glass,obscure laminated glass factory

### About 8.76mm Milky White Laminated Glass

8.76mm milky white laminated glass is made up of two layers 3mm clear float glass permanently bonded together with 0.76mm milky white PVB interlayer via a controlled, highly pressurized and industrial heating process. The lamination process results in the glass panels holding together in the event of breakage, reducing the risk of harm. [Laminated Glass](#) is classified as Grade A Safety Glass.

### 8.76mm Milky White Laminated Glass Characteristic

#### High Security

When laminated glass is attacked by outside force, it hard to be penetrated because PVB film has strong tenacity and can absorb and weaken a mass of striking energy. Even if it's broken, the splinters will stick to the interlayer and not scatter.

#### Sound Insulation

PVB film is a kind of organic material and it can block sound waves. Therefore, the [laminated safety glass](#) offers better sound insulation performance than the pure glass with the same thickness.

#### Create aesthetic sense to building

8.76mm laminated glass will beautify the buildings and harmonize their appearances with surrounding views which meet the demand of architects.

### **8.76mm White Translucent Laminated Glass Available Standard Size**

1830x2440mm, 2140x3300mm, 2250x3300mm, 2140x3660mm, 2250x3660mm, 2440x3300mm, 2440x3660mm, any cut to size could be produced as per customer's requirement.

### **8.76mm White PVB Laminated Glass Application**

- Interior partition wall, shower enclosure, stair handrail
- Exterior balcony, **balustrade**, shopfront, long corridor
