

China 10.38mm heat strengthened laminated glass factory, high quality 551 clear PVB heat strengthened laminated glass

About 10.38mm Clear heat strengthened Laminated Glass

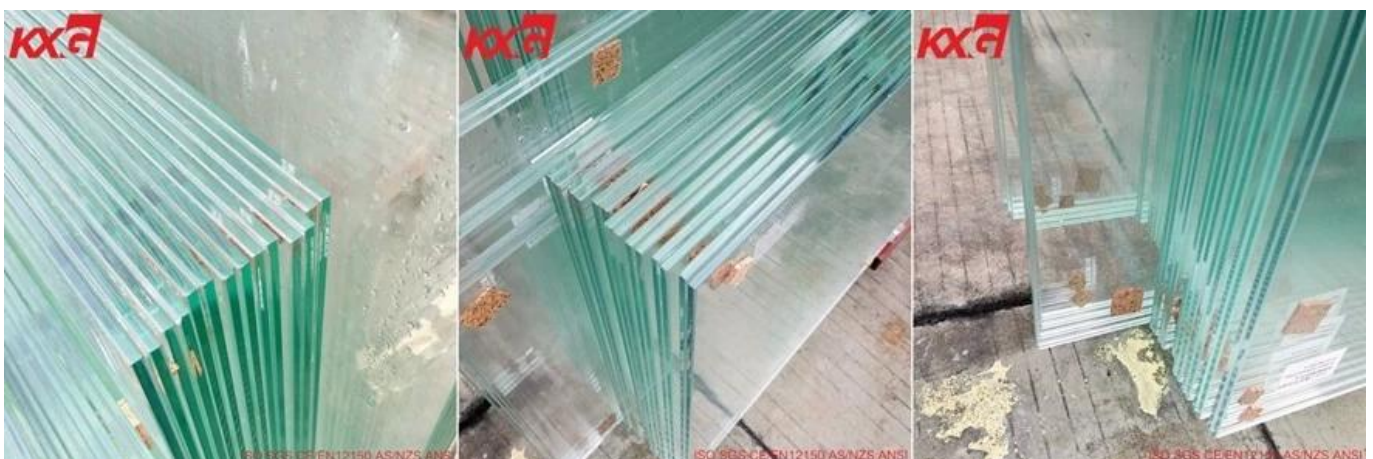

10.38mm clear heat strengthened [PVB laminated glass](#) is made of two pieces of 5mm clear float glass sandwiching a layer of 0.38mm PVB film, by highly pressurized and industrial heating process. The lamination process results in the glass panels holding together in the event of breakage, reducing the risk of harm.

551 Clear Heat Strengthened Laminated Glass Characteristic

1. High Security:

[Kunxing Glass](#) is a professional building glass, produce a lot safety laminated glass. When laminated glass is attacked by outside force, it hard to be broken because PVB film has strong tenacity. When the glass broken, the glass shards will stick on the PVB film and not fall down to hurt people.

2. Sound Insulation:

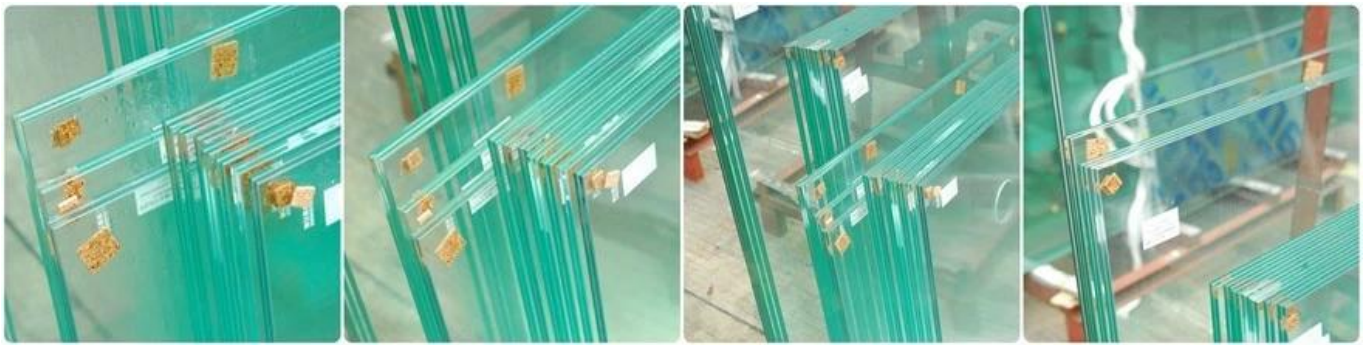

PVB film is an effective absorb of sound. Therefore, the laminated safety glass offers better sound insulation performance than the single glass with the same thickness.

3. Create beautiful scenery to building:

10.38mm laminated glass will beautify the buildings and harmonize their appearances with surrounding views which meet the demand of architects.

10.38mm Clear Laminated Glass Available Standard Size:

1830x2440mm, 2140x3300mm, 2250x3300mm, 2140x3660mm, 2250x3660mm, 2440x3300mm, 2440x3660mm, any cut to size could be produced as per customer's requirement.

551 Clear Laminated Glass Application:

- Interior office partition wall, shower enclosure, stair railing, window.
- Exterior balcony, [balustrade](#), shopfront, long corridor.
- Many Others.
