

Export Product Clear Curved Tempered Laminated Glass China Manufacturer Dongguan

Characteristics of low iron tempered laminated glass

Glass thickness: two layers of low-iron laminated glass, such as: 5 + 5mm, 6 + 6mm, 8 + 8mm, 10 + 10mm, 12 + 12mm, 15 + 15mm, 19+ 19mm; three layers of ultra-clear laminated glass, such as: 5 + 5 + 5mm, 6 +6 + 6mm, 8 + 8 + 8mm, any custom multi-layer [laminated glass](#).

Glass size

1. Maximum size 3300x13000mm, radius ≥ 6000 mm
2. size 2400x1500mm, radius ≥ 485 mm
3. size 4800x3000mm, radius ≥ 1000 mm
4. size, 2440x1650mm, radius ≥ 680 mm
5. Special processing of glass: cutting, drilling, marking printing, sand blasting, screen printing, hot dip, etc.

Products name 产品名称	CurvedTemperedglass 弯钢化玻璃
Thickness 厚度	4-19mm
Maximum size 最大尺寸	2440mmX8000mm
Minimum Radius Range 最小弯钢半径	5-6mm R>=450mm; 8mm-10mm R>=650mm; 12mm-19mm R>=1200
Features 特性	It has same safety and ability of anti-impact with flat tempered glass, but has a higher intensity for the wind pressure and bending than the flat tempered glass.
Certification 认证资质	CCC, ISO, CE, AS/NZS2208

Glass type

Ultra-transparent tempered laminated curved glass, low-iron laminated frosted glass, ultra-clear screen printing laminated glass, ultra-white tempered laminated [heat soak glass](#).

Advantages of laminated curved glass

1. High transparency, minimizing the distortion of the original color of the objects behind it.
2. Minimize the risk of injury from accidental impact. Maintain its overall integrity and continue to act as a barrier, even if the glass breaks, preventing vandalism and burglary. It can be repeatedly dropped from heavy objects such as bricks, hammers or crowbars.
3. Reduce noise and provide a considerable atmosphere day and night.
4. Provides an extremely high level of UV protection, thus helping to reduce the effects of fading and aging.
5. When using opaque PVB, protect your privacy and security without affecting optical transmission.
6. Surface modeling, compared with flat laminated glass, the aesthetic effect increases the architectural value.

In addition to ultra-thin laminated curved glass, we can also do ultra-clear heat-enhanced curved glass, ultra-clear hardened curved glass, low-iron curved tempered hot-dipped glass, ultra-white curved laminated hot-dipped glass.

Our service

As a professional processing glass factory, [Kunxing Glass](#) has been in China for more than 20 years. We are 100% sure to produce and export high quality CE SGCC low iron toughened laminated glass, ultra-clear quenched laminated glass, high quality laminated curved glass, widely used. On windows, doors, railings, skylights, walls, elevators, etc.
