

China glass manufacturer wholesale price safety clear round tempered glass

About KXG colorless round toughened glass

Clear round tempered glass, also called colorless round toughened glass, colorless round tempered glass etc. It's a kind of [safety glass](#). Tempered glass is made by annealed glass via a thermal tempering process. The glass is placed onto a roller table tempering equipment, taking it through a furnace that heats it well above its transition temperature of 564 °C (1,047 °F) to around 620 °C (1,148 °F). The glass is then rapidly cooled in a short time.

Specification of KXG round toughened glass

Thickness: 3mm 4mm 5mm 6mm 8mm 10mm 12mm 15mm 19mm 22mm

Characteristic of KXG clear round tempered glass

- 1.Round tempered glass is 5 to 7 times harder than common annealed glass.
- 2.It is also regarded as safety glass because when it breaks, it becomes small particles that will not hurt you and your family.
- 3.Round toughened glass must be cut to size or pressed to shape before toughening, and cannot be re-worked once toughened. Polishing the edges or drilling holes in the glass is carried out before the toughening.

Application of clear round tempered glass

Generally speaking, clear round [toughened glass](#) mostly used for round tempered glass table top such as center table top and dining table top, sometimes it also used as decorative glass.
