

## Manufacturer wholesale price high quality tempered laminated glass skylight supplier

[Skylight glass](#) are becoming more and more popular for use in architecture. It not only meets the energy efficiency required by society, but also makes the building look more attractive. You can choose the special design that suits your skylight: the shape can be a flat glass sunroof or a curved glass sunroof; the color can be transparent, green, blue, bronze, any color; safety glass can be used for laminated glass and laminated insulating glass.

### Toughened laminated glass for skylights

High quality tempered laminated glass consisting of two tempered glass and PVB films. It is a safety glass for skylights or roofs. The glass type colors are: transparent tempered glass, ultra clear tempered glass, [gray tempered glass](#), bronze tempered glass, green tempered glass, blue tempered glass, and the like.

### Advantages of skylight glass

- Glass skylights provide plenty of natural light, reducing the cost of artificial lighting and air conditioning, saving money and energy efficiency.
- Reduce UV radiation by using laminated safety glass in the skylight.
- Health Benefits: Sunlight is the full spectrum, better for our eyes, body and mind than for artificial light from bulbs and tubes.
- Glass skylights are indoor and outdoor bridges that allow homeowners to feel connected to nature.
- Glass skylights help balance light in the room, reduce glare, and change living areas in a more open, safer space.

Adequate sunlight can prevent the lack of vitamin D and B1.

- Make your room look special and more attractive.
