

Professional [curved tempered glass](#) railing manufacturer, curved laminated glass for balustrade

The advantages of glass balustrade / glass railing / glass handrail / glass fencing as below:

- High security glass could make sure the human safety
- Transparent glass could help enjoy the scenery easily
- Various glass colors and designs, perfect for the construction decoration
- Easy to clean when dirty and replace when broken accident

[Curved laminated glass](#) is produced by permanently bonding two or more layers of bent glass together with an interlayer. The interlayer acts to hold the glass together in the event of a breakage, therefore the glass will tend to adhere to the interlayer and not fall apart.

Laminated curved glass can be made up of any combination of glass types, such as [insulated glass units](#) for increased thermal and solar performance, acoustic and decorative applications
