55.4 Advantages of glass balcony railings

1. In terms of shape, it can be curved or flat;
2. High safety: PVB or SGP interlayer absorbs impact energy and resists penetration. Although the glass breaks, the glass shards remain firmly bonded to the interlayer, minimizing the risk of damage, making it ideal for elevated glass, which is a great choice for any area, even in homes where children may be present.
3. Available in color,clear/ultra-clear/green/blue/bronze/grey; they have an incredibly versatile design with many different frames and fixed options, as well as different colors and textures. You can use any style of glass railing for your home.
4. Durability: Laminated glass is durable,maintains its color and strength, and is as easy to clean as ordinary glass.
5. Brighter, bigger space. Through theglass, the light will pass easily and your home will become more charming and lively because of the light. On the other hand, the glass railing creates a sense of space and adds a touch of natural brilliance. Bring elegance to your home as it makes your home look bigger and more spacious than reality.
