

Commercial building awning glass 12mm clear frosted safety tempered glass canopy factory price

Glass awnings, also known as glass canopy, provide attractive and practical features for buildings and have become the latest boom in the outdoor decoration market, especially for office decoration.

Advantages of the outer door canopy

1. Natural light passes through the entrance area to make the building shine.
2. Provide protection: Keep the weather away from the door when entering and leaving.
3. Bring you a logo of the facade, a special landscape with a flat or curved shape, transparent or color design.
