Clear Float Glass

Clear Float Glass is a type of glass that is produced by floating molten glass on a bath of molten tin. This process creates a flat, uniform surface, making it ideal for applications where clarity and consistency are important. Clear float glass is commonly used in windows, doors, and architectural glass panels. It is known for its high transparency and smooth finish.

Feature(性能)	Tempered(钢化)	Heat strengthened(半钢化)	Normal(普通)
Safety(安全性)	best(最好)	general(一般)	none(没有)
Intensity(强度)	150mpa	100~1520mpa	30~90mpa
Thermal stability(热稳定性)	250~320°C	100°C	2~100°C
Surface stress(表面应力)	95mpa	24~69mpa
Broken state(破碎状态)	obtuse-angled grain(钝角颗粒)	shooting broken(放射状破碎)	sharp(锐利)
Self-destruction(自爆)	sometimes(会)	seldom(基本不会)	never(不会)
